INDEX OF SUBJECTS

Agave sisalana (sisal), some micronutrient deficiencies in (Pinkerton), 113

Apple crop in Iran, statistical studies of experimental techniques with the (Abraham, Hoobakht and Parvin Aryan Nejad), 249

Beans and peas, tall and dwarf, the root nodulation of (Masefield), 123

Beans (*Phaseolus vulgaris* L.), effect of dry organic matter on growth and yield of (Magalhães, Montojos and Miyasaka), 137

Cladosporium fulvum (leaf mould) in Western Nigeria, breeding tomatoes for resistance to (Bliss and Arny), 177

Cocoa clones in Ghana, early results from a trial of Uper Amazon (Lockwood), 321

Coconuts, red ring disease of, preliminary investigations into the use of systemics for control of (Hoyle), 1

Coffea arabica L. in Kenya, effects of fruiting, defoliation and ring-barking on the accumulation and distribution of dry matter in branches of (Cannell), 64

Coffee berry disease in Kenya, the incidence of climatic conditions favourable to (Waller), 303

Crop plant evolution, changing concepts in (Hutchinson), 273

Cucumis pepo (summer squash) in Israel, effects of pollination on set and growth of (Globerson), 183

Cycocel (CCC), effects of, on lodging and grain yield of upland and swamp rice in Sierra Leone (Das Gupta), 157

Diallel cross of maize varieties grown at three altitudes in Tanzania, analysis of a (Bolton), 145

Dwarf wheats, effects of time and method of applying nitrogen to (Jain, Maurya and Singh), 21

Elaeis guineensis Jacq. (oil palm) in Malaysia, productivity of the (Corley, Gray and Ng Siew Kee), 129

Farming systems of the world, by A. N. Duckham and G. B. Masefield, reviewed by C. C. Webster, 190

Fertilizer trials with sprayed and unsprayed cotton in Nigeria (Palmer and Goldsworthy), 281

Fruit trees, a method for studying the distribution of absorbing roots of (Weller), 351

Insect pollination of crops, by J. B. Free, reviewed by M. E. Solomon, 367

Ipomoea batatas—L. Lam (sweet potatoes), variability in commercial, in Trinidad (Haynes and Wholey), 27

Leaching loss of nitrogen in submerged rice cultivation (Pande and Adak), 329

Leaf mould (*Cladosporium fulvum*) in Western Nigeria, breeding tomatoes for resistance to (Bliss and Arny), 177

Leguminous cover crops for maintaining soil fertility in sisal in Tanzania. II. Effects on moisture status of soil and sisal (Hopkinson), 337

Maize at three plant densities, water use by (Downey), 161

Maize varieties grown at three altitudes in Tanzania, analysis of a diallel cross of (Bolton), 145

Maize varieties in Tanzania, response of to different plant populations and fertilizer levels (Bolton), 193

Manihot utilissima (tapioca), growth and productivity of. II. Stomatal functioning and yield (Williams), 50

Mechanized harvesting of tree crops (Folley), 97

Nitrogen, losses of, from urea in some soils of East Pakistan (Khan and Rashid), 107

Nitrogen mineralization in West Indian soils (Cornforth), 345

Nodulation, the root, of tall and dwarf peas and beans (Masefield), 123

Nodules in tropical pasture legumes in the field, distribution and weight of (Whiteman), 75

Oil palm (*Elaeis guineensis Jacq.*) in Malaysia, productivity of the (Corley, Gray and Ng Siew Kee), 129

Peas and beans, tall and dwarf, the root nodulation of (Masefield), 123

Pest control in rice pans manual no. 3, reviewed by J. H. Stapley, 93
Phaseolus vulgaris L. (beans), effect of dry organic matter on growth and yield of (Magalhães, Montojos and Miyasaka), 137
Plant agriculture, selected and introduced by Jules Janick and others, reviewed by G. C. Stevenson, 363
Plant diseases of Fiji, by K. M. Graham, reviewed by A. F. Posnette, 364
Potassium status of soils in the Savanna Zone of Nigeria (Wild), 257
Proteins as human food, ed. by R. A. Lawrie, reviewed by R. L. M. Synge, 365

Red ring disease of coconuts, preliminary investigations into the use of systemics for control of (Hoyle), 1
Rice experimental plots, border effects in. I. Unplanted borders (Gomez and de Datta), 87
Rice fertilization, reviewed by J. K. R. Gasser, 271
Rice, upland and swamp, effects of cycocel on lodging and grain yield of, in Sierra Leone (Das Gupta), 157
Rice, yield of, effects of depth of submergence, fertilization and cultivation on water requirement and (Pande and Mittra), 241
Role of nitrogen in grassland productivity, by D. C. Whitehead, reviewed by Roy Hughes, 189
Root nodulation of tall and dwarf peas and beans (Masefield), 123

Semi-dwarf wheat, responses of to temperatures representing a tropical dry season. I. Non-extreme temperatures. II. Extreme temperatures (Owen), 33, 43
Shallots, dormancy of, in Ghana (Sinnadurai and Amuti), 17
Sisal (*Agave sisalana*), some micronutrient deficiencies in (Pinkerton), 113
Soil moisture, effects of, on growth of young tea in Malawi (Fordham), 171
Soil moisture stress on two varieties of upland cotton in Israel, effects of. I. The coastal plain region (Marani and Amirav), 213; II. The Northern Negev region (Shimshi and Marani), 225; III. The Bet-She'an valley (Marani and Amirav), 289
Sorghum, by H. Doggett, reviewed by G. E. Dixon, 192
Sprayed and unsprayed cotton in Nigeria, fertilizer trials with (Palmer and Goldsworthy), 281
Sugar beet in Israel, spacing and space-planting experiments on (Dor, Carmeli, Lachover and Zur), 9
Summer squash (*Cucumis pepo*) in Israel, effects of pollination on set and growth of (Globerson), 183
Sweet potatoes (*Ipomoea batatas*—L. Lam), variability in commercial, in Trinidad (Haynes and Wholey), 27

Tapioca (*Manihot utilissima*), growth and productivity of. II. Stomatal functioning and yield (Williams), 50
Tea, young, effects of soil moisture on growth of, in Malawi (Fordham), 171
Tomatoes, breeding for resistance to leaf mould (*Cladosporium fulvum*) in Western Nigeria (Bliss and Arny), 177
Tree crops, mechanized harvesting of (Folley), 97

Upland cotton in Israel, effects of soil moisture stress on two varieties of. I. The coastal plain region (Marani and Amirav), 213; II. The Northern Negev region (Shimshi and Marani), 225; III. The Bet-She'an valley (Marani and Amirav), 289
Urea in some soils of East Pakistan, losses of nitrogen from (Khan and Rashid), 107

Water use by maize at three plant densities (Downey), 161
Wetness recorder, a simple (Huxley and Waller), 205
Wheat, semi-dwarf, responses of to temperatures representing a tropical dry season. I. Non-extreme temperatures. II. Extreme (Owen), 33, 43
Wheats, dwarf, effects of time and method of applying nitrogen to (Jain, Maurya and Singh), 21

Yams in Barbados, effects of fertilizing and other factors on (Gooding), 315

INDEX OF AUTHORS

ABRAHAM, T. P., HOOBAKHT, A. and PARVIN ARYAN NEJAD. Statistical studies of experimental techniques with the apple crop in Iran, 249

ADAK, N. K., *see* PANDE, H. K.

AMIRAV, A., *see* MARANI, A.

AMUTI, S. K., *see* SINNADURAI, S.

ARNY, D. C., *see* BLISS, F. A.

BLISS, F. A. and ARNY, D. C. Breeding tomatoes for resistance to leaf mould (*Cladosporium fulvum*) in Western Nigeria, 177

BOLTON, A. Analysis of a diallel cross of maize varieties grown at three altitudes in Tanzania, 145

BOLTON, A. Response of maize varieties in Tanzania to different plant populations and fertilizer levels, 193

CANNELL, M. G. R. Effects of fruiting, defoliation and ring-barking on the accumulation and distribution of dry matter in branches of *Coffea arabica* L. in Kenya, 63
